Sanctuary Design Concept Vote Item

Frequently Asked Questions

1) What are we voting on at the December 3 Congregational Meeting?

A design concept for the Sanctuary. The congregation will vote yes/no **only** on whether to move forward with the proposed design.

2) What is the design concept?

Columns built out from the front and back walls of the Sanctuary that will integrate stained glass windows backlit with LED lighting. Details and artistic renderings can be found in the informational insert *Our Design Vision to Renew Peoples Church Interiors*.

3) Why stained glass windows?

The Window & Sanctuary Team is exploring ways to beautify our Sanctuary using the stained glass windows we preserved from our former church building.

4) How much will this cost?

Preliminary estimates range from \$26K to \$40K. The wide range mainly reflects estimated restoration costs for the Rose window. The low estimate includes only the central round window as shown in the insert. The high estimate includes the entire "compound" window.

5) How will we pay for this project?

We will conduct a Capital Fundraising Campaign.

6) What if we vote no on this design concept?

The Window & Sanctuary Team may create a new design for approval at a later date.

7) What's the next step if we approve this design concept?

The team will develop a fully detailed project plan (see insert Step 3). This plan would come to the Congregation for approval before moving forward.

8) Who do I contact if I have more questions?

Contact the Window & Sanctuary Team: sanctuary-team@peoplesuu.org
